

CUT CORNER

## GUE S-DRILL

1. Face team mate with some distance apart.
2. One diver signals OOG
3. The other diver donates his longhose while they they swim towards each other.
4. Make sure the OOG diver gets gas.
5. Confirm that the OOG diver is OK.
6. Make sure the light cord is free from the longhose.
7. Deploy full length of the longhose.
8. Check that the longhose on the OOG diver is stowed.
9. Go into touch contact and swim a couple of meters.
10. Make sure to manage the longhose so that it can't get entangled in anything.
11. Stop and put everything back to normal.
